

IN THE CLAIMS

Please amend the claims as follows:

Claim 1-5 (Canceled).

Claim 6 (Currently Amended): A food product, comprising:

1 to 80 wt. % of an oil composition and food, based on a weight of said food product;

wherein the oil composition, comprises 0.1 to 59.8% by weight of a triglyceride, about 40 to 99.7% by weight of a diglyceride, 0.1 to 10% by weight of a monoglyceride, and at most about 5% by weight of a free fatty acid, based on a weight of said oil composition wherein a content of  $\omega$ -3 unsaturated acyl groups having at least 20 carbon atoms and monoenoic acyl groups in acyl groups constituting the diglyceride are about 15 to 89.5% by weight and about 10 to 84.5% by weight, respectively, based on a weight of acyl groups in said diglyceride.

Claim 7 (Previously Presented): The food product of claim 6, wherein the food product is a salad dressing.

Claim 8 (Previously Presented): The food product of claim 7, further comprising a wine vinegar.

Claim 9 (Previously Presented): The food product of claim 6, wherein the food product is a mayonnaise.

Claim 10 (Previously Presented): The food product of claim 6, wherein the food product is a cream.

Claim 11 (Previously Presented): The food product of claim 6, wherein the food product is a baked food.

Claim 12 (Previously Presented): The food product of claim 6, wherein the food product is a chocolate.

Claim 13 (Previously Presented): The food product of claim 6, wherein the food product is a potato chip.

Claim 14-22 (Canceled)

Claim 23. (new) The food product of claim 6 prepared by combining food with an oil composition comprising 0.1 to 59.8% by weight of a triglyceride, about 40 to 99.7% by weight of a diglyceride, 0.1 to 10% by weight of a monoglyceride, and at most about 5% by weight of a free fatty acid, based on a weight of said oil composition wherein a content of  $\omega$ -3 unsaturated acyl groups having at least 20 carbon atoms and monoenoic acyl groups in acyl groups constituting the diglyceride are about 15 to 89.5% by weight and about 10 to 84.5% by weight, respectively, based on a weight of acyl groups in said diglyceride.
